

# ITL LAB: EXPERIMENT 2

**NAME:** Shreya Shetty

**UID:** 2019140059

**CLASS:** TE IT

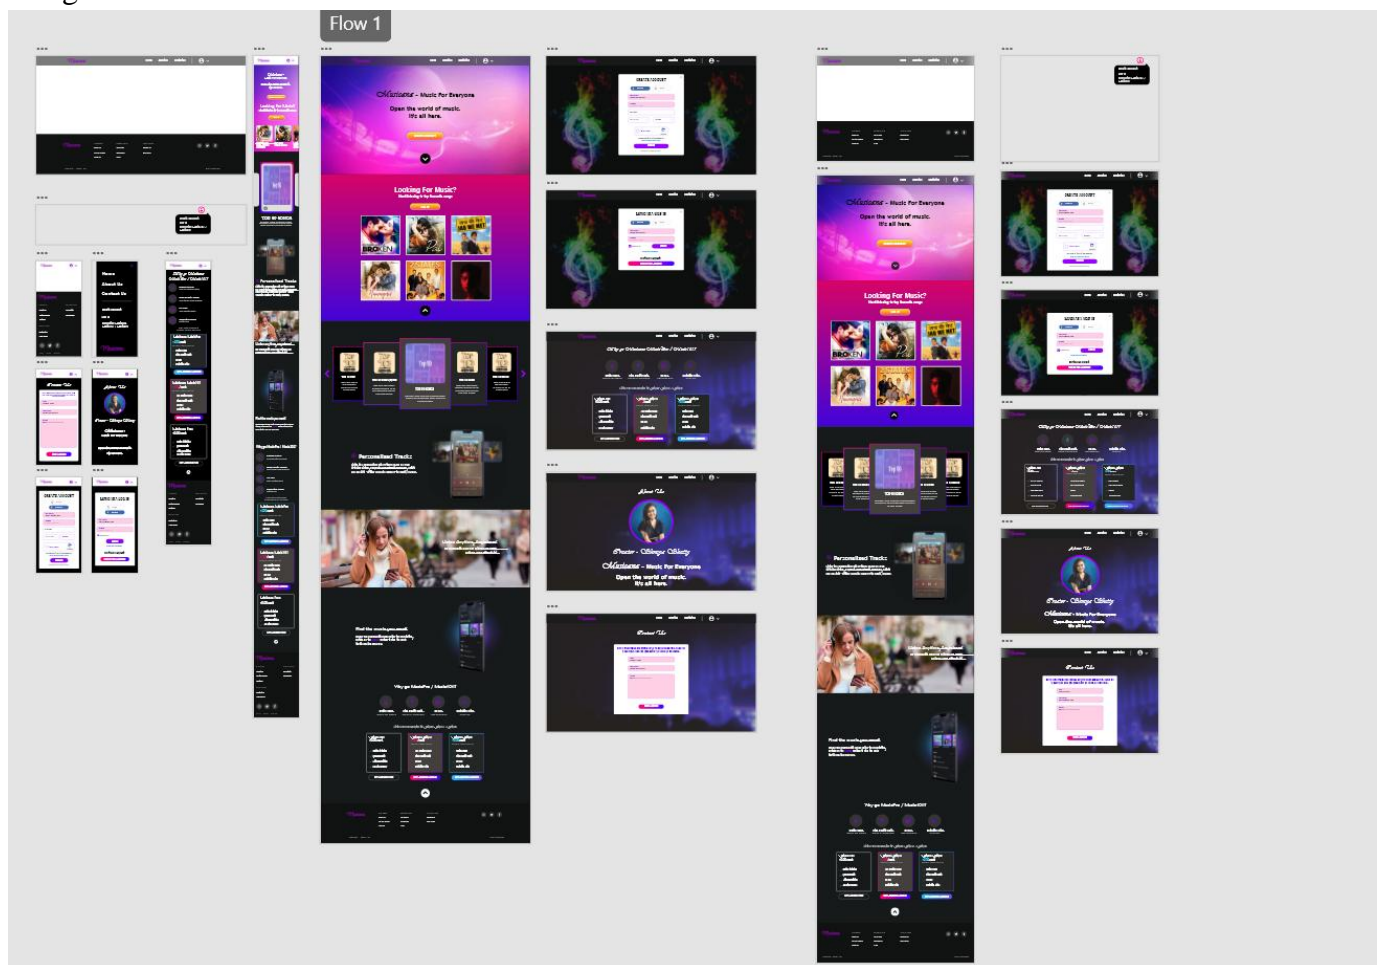

**BATCH:** D

**AIM:** Design UX for a given problem definition by using open source UX tools

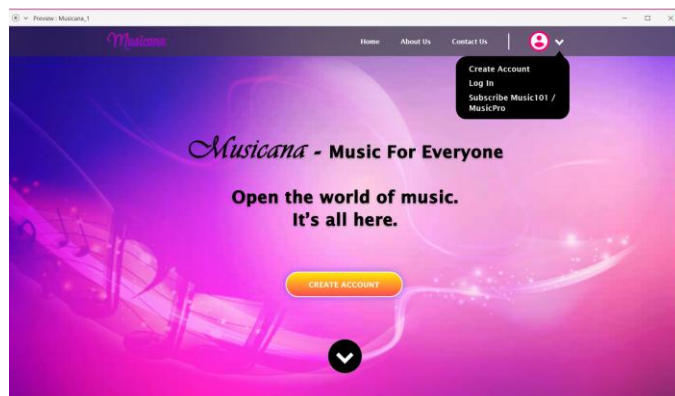

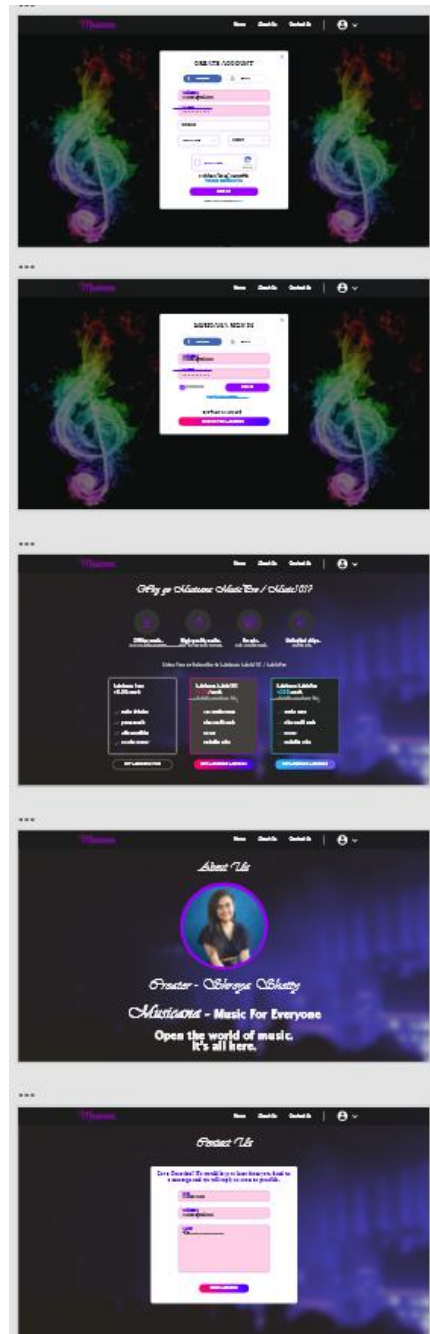

**UX Tool Used :** Adobe XD

In this experiment, I have designed 3 UI designs for a Music Website “Musicana” in 3 different device sizes.

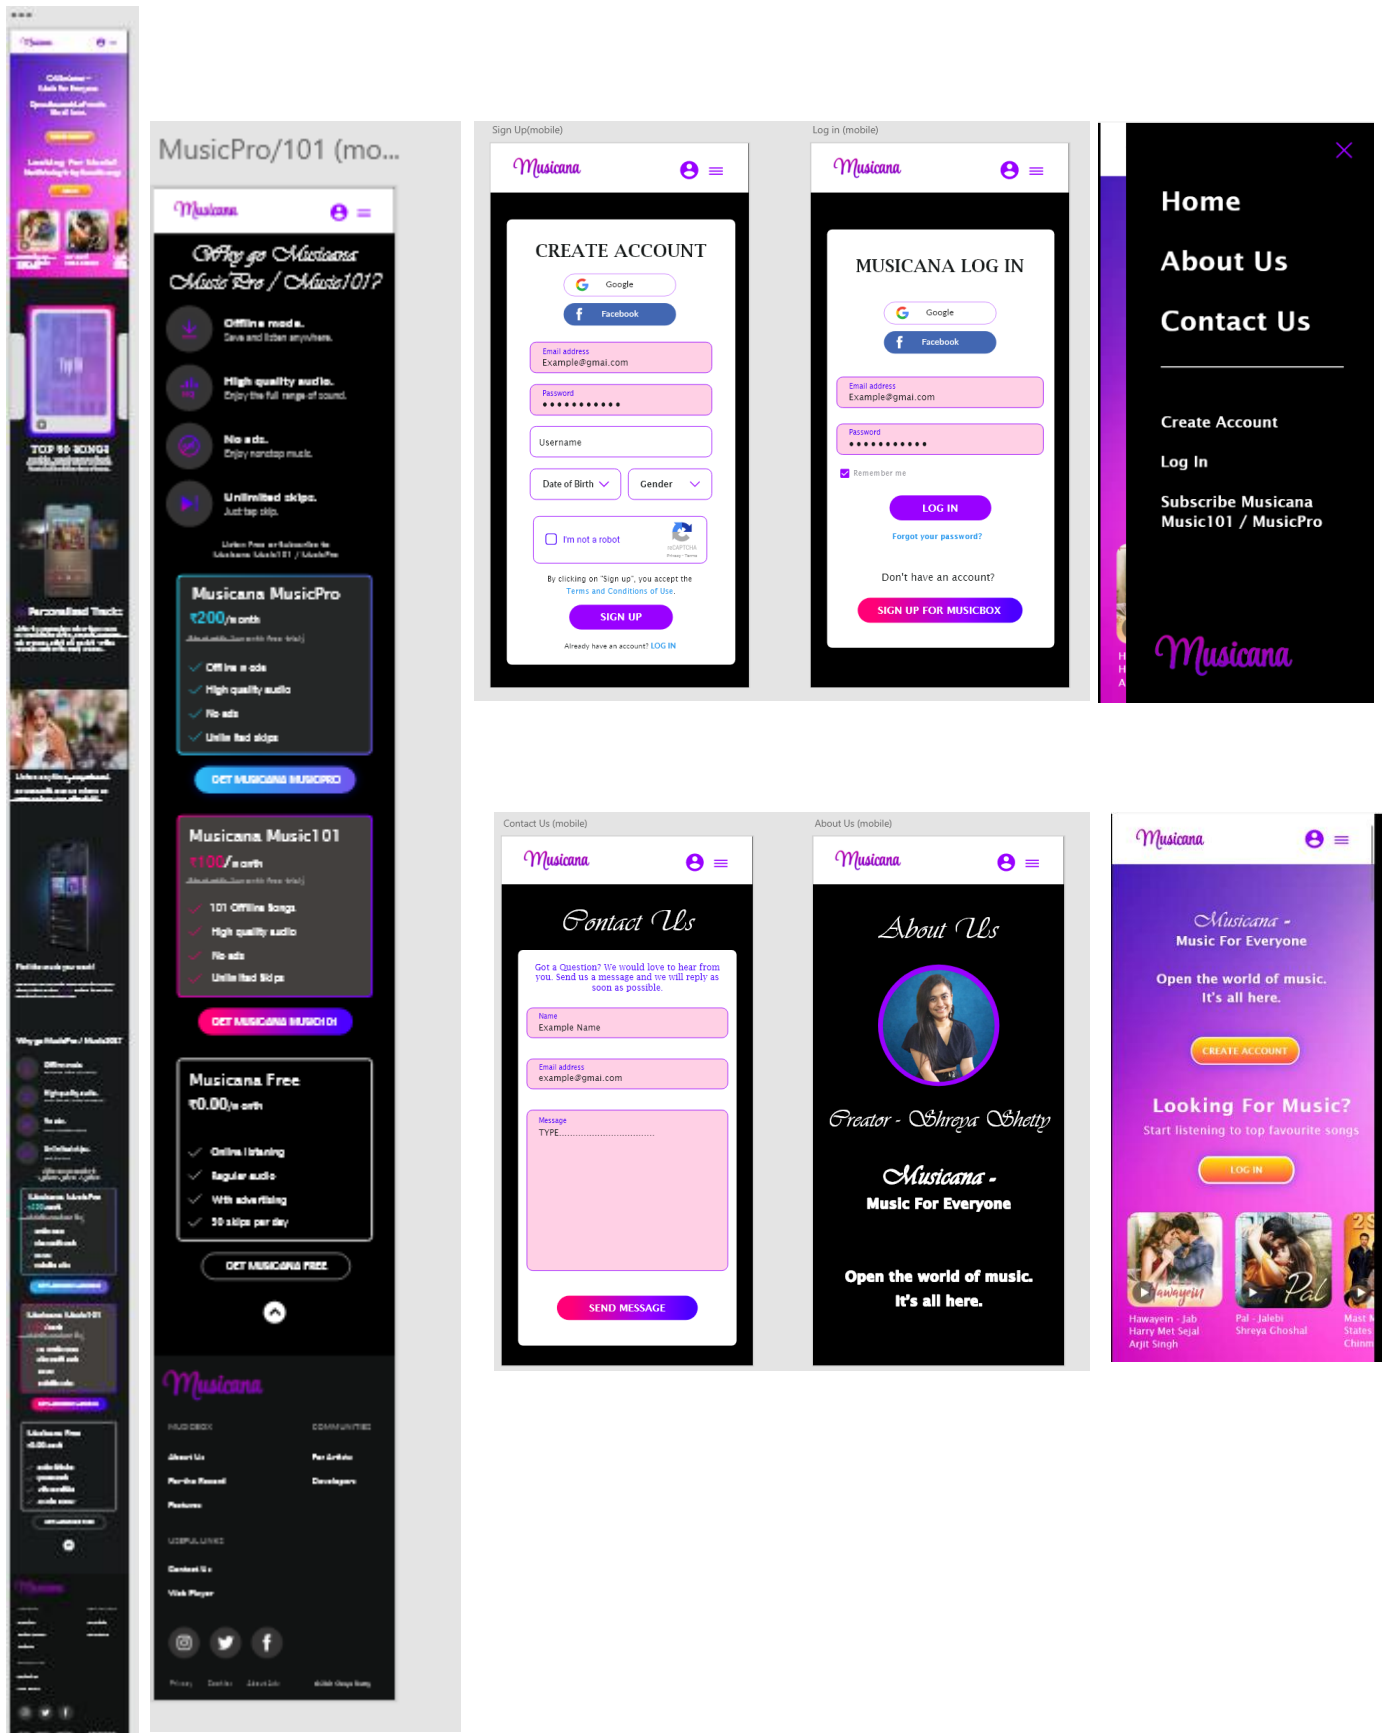

Design 1 in 3 Device Sizes:

Desktop Size Canvas :

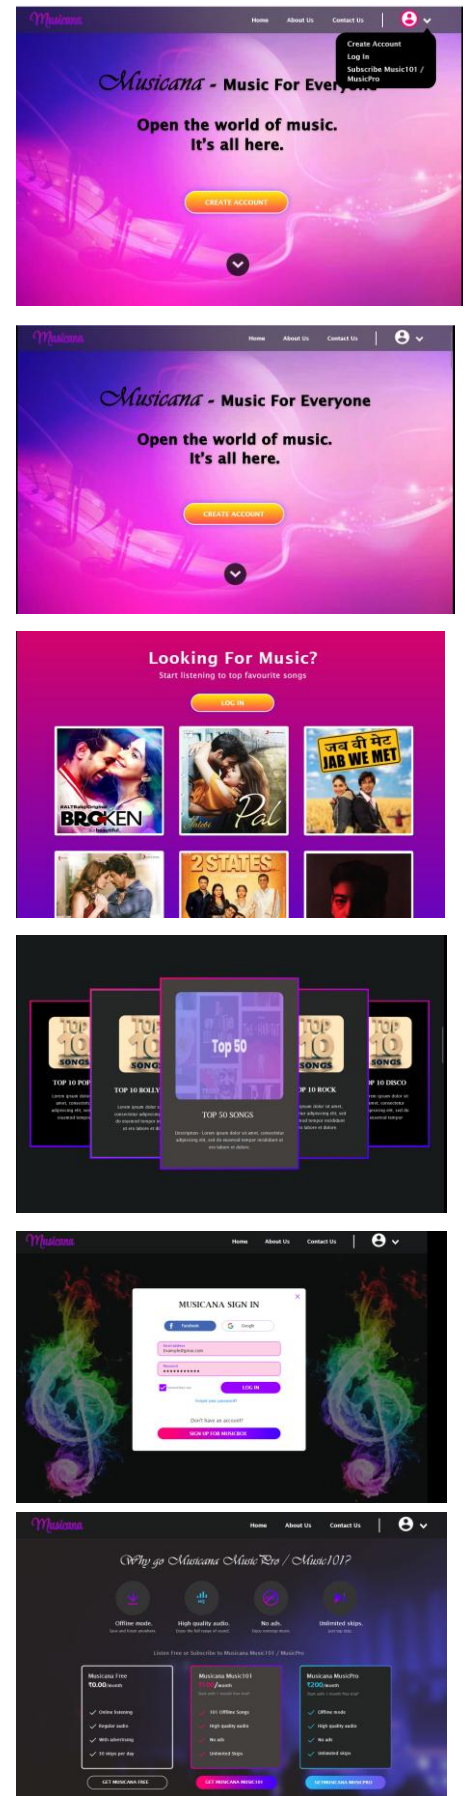

## Mobile Size Canvas:

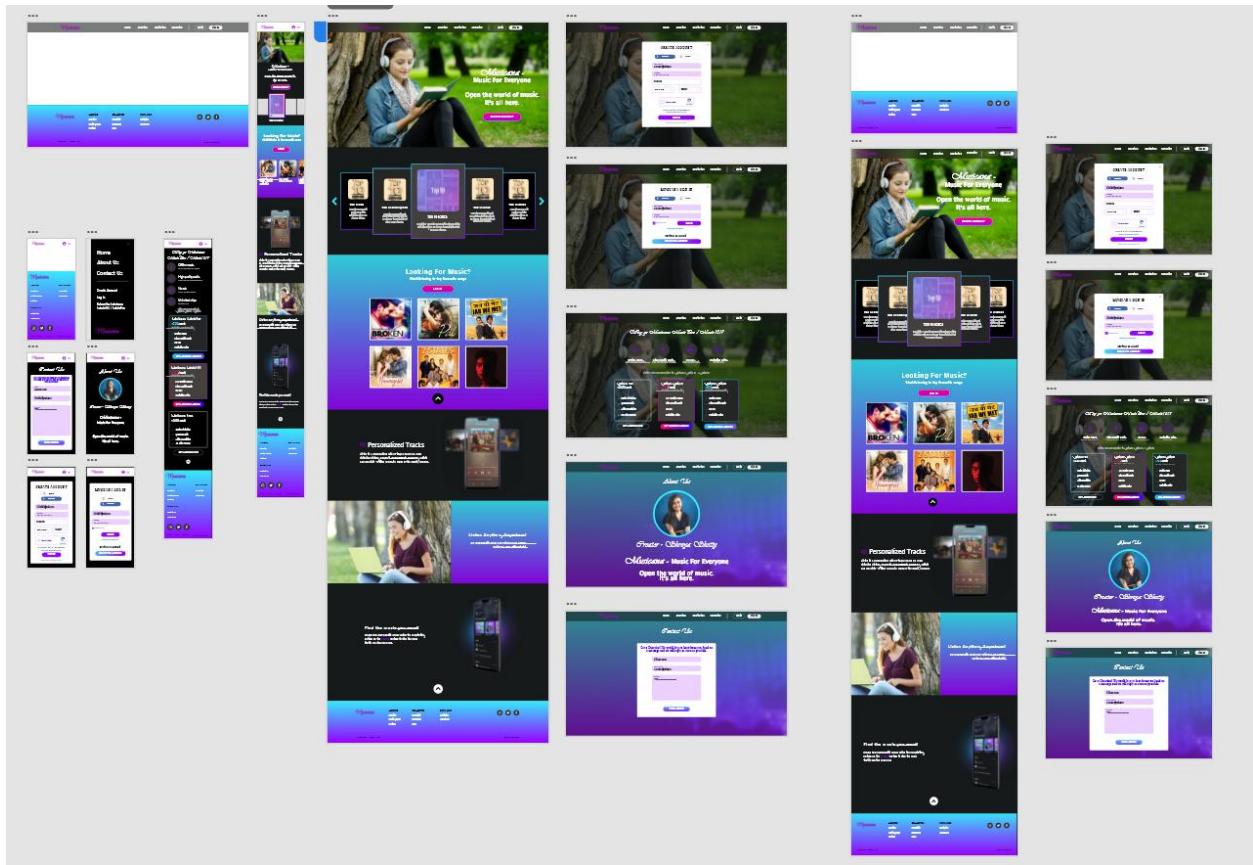

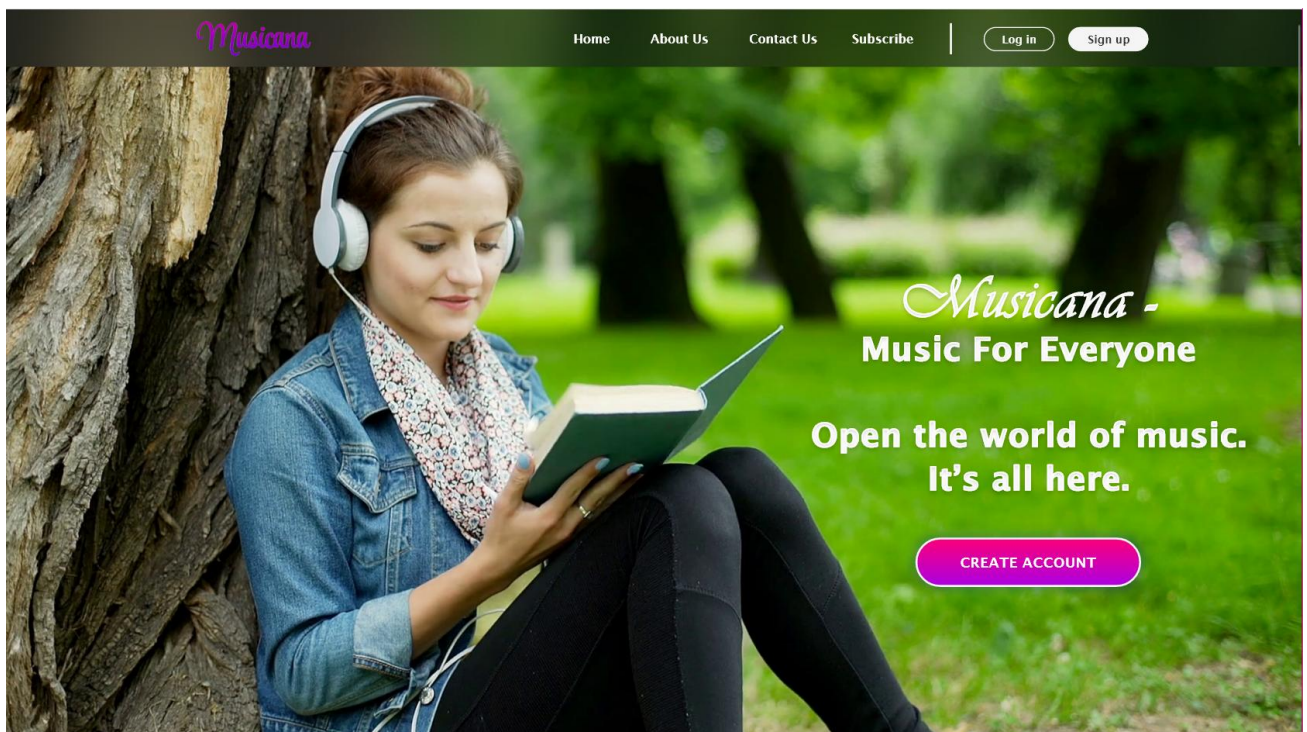

## Tab Size Canvas:

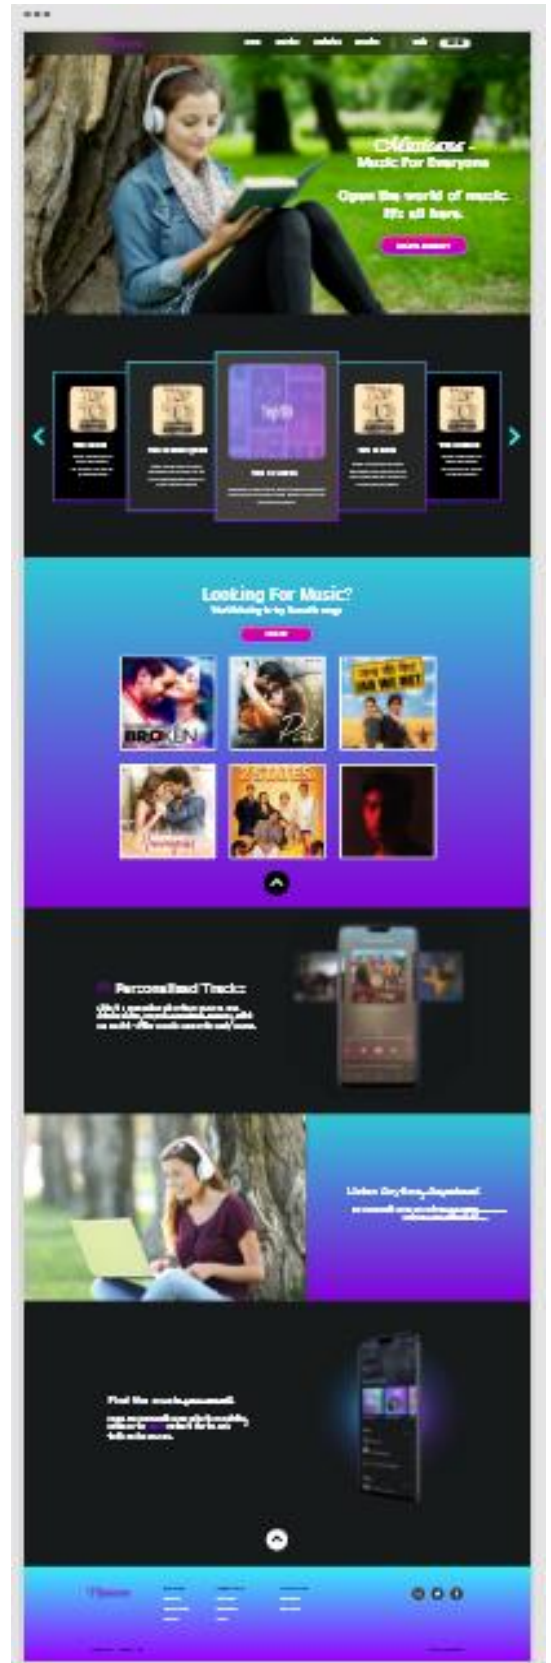

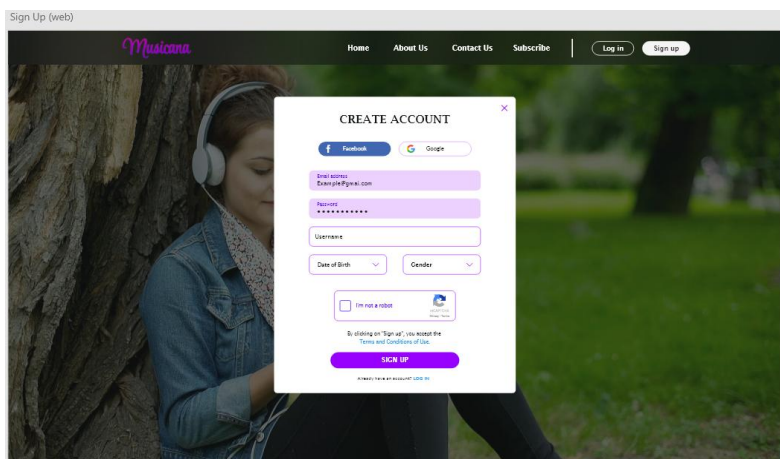

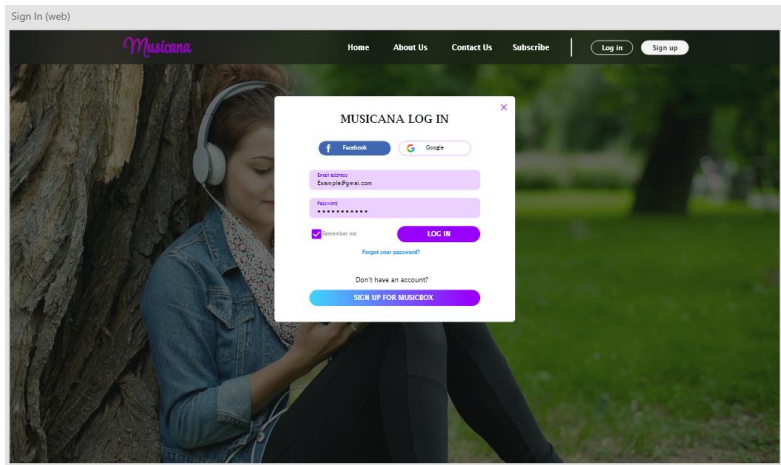

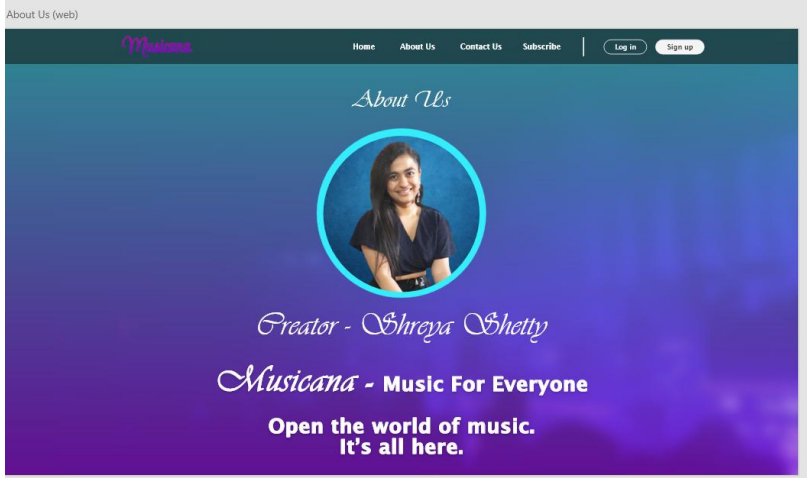

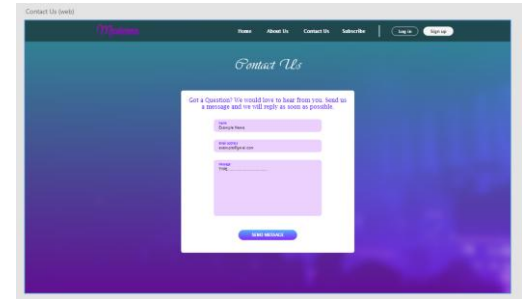

Design 2 in 3 device sizes:

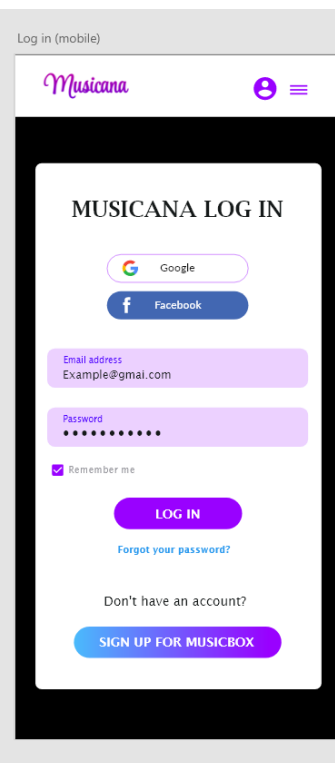

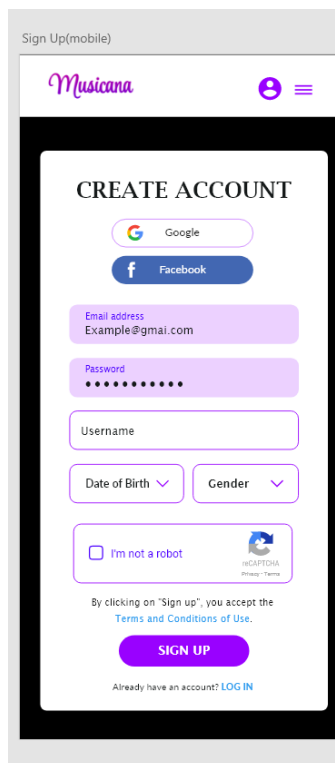

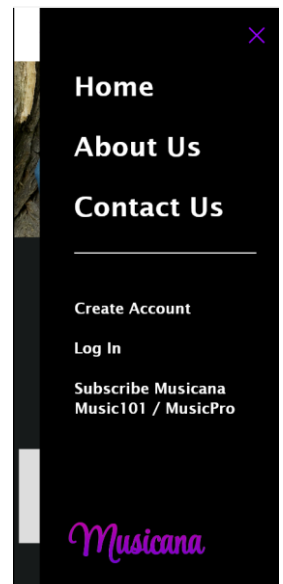

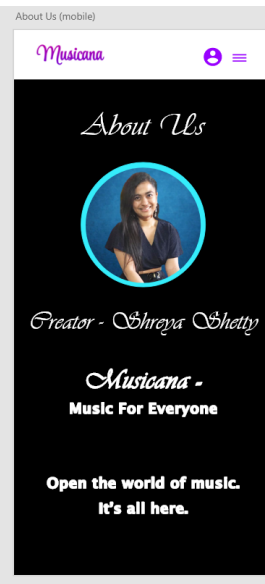

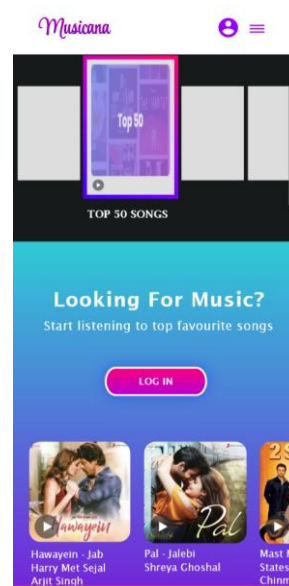

Desktop Size Canvas:

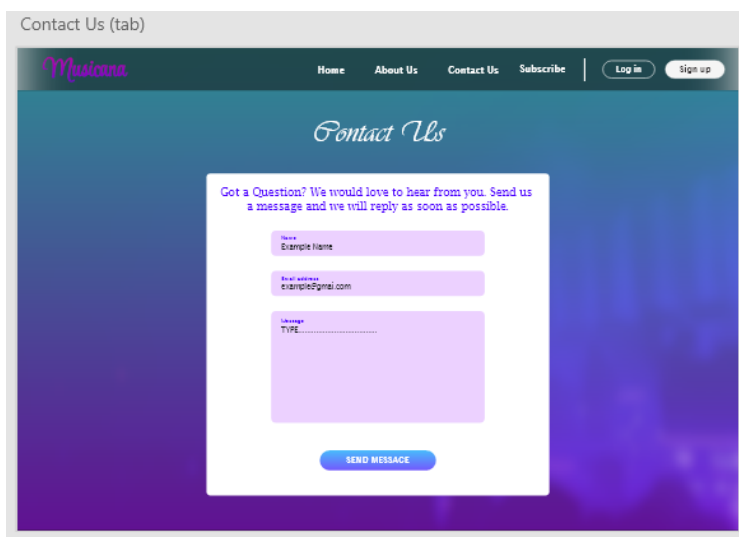

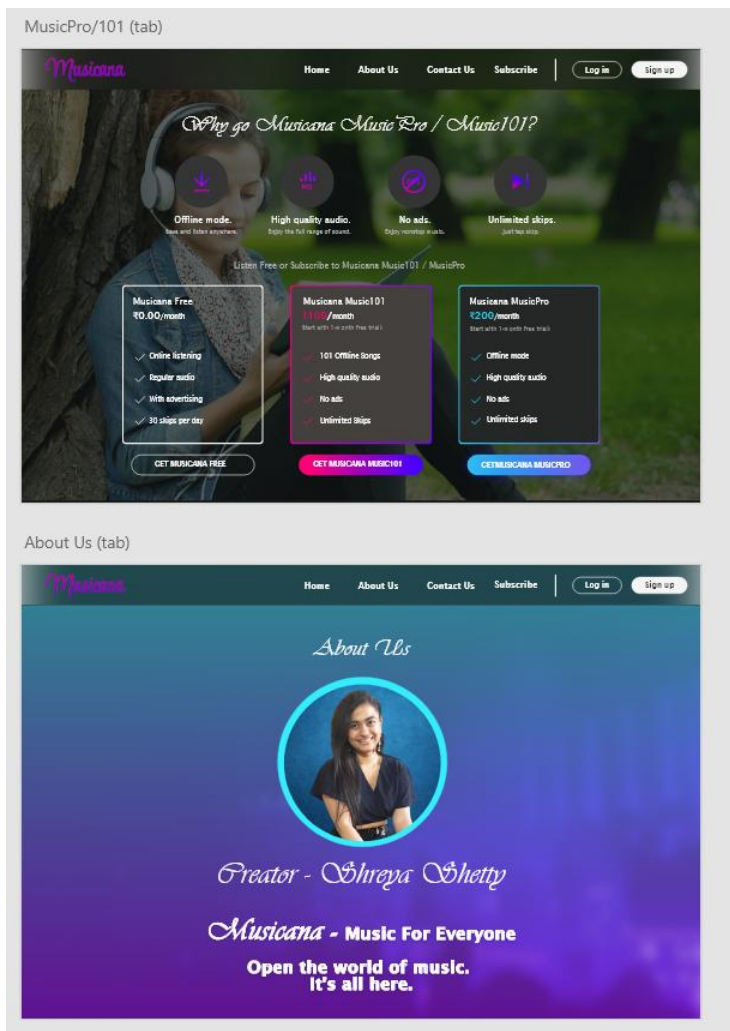

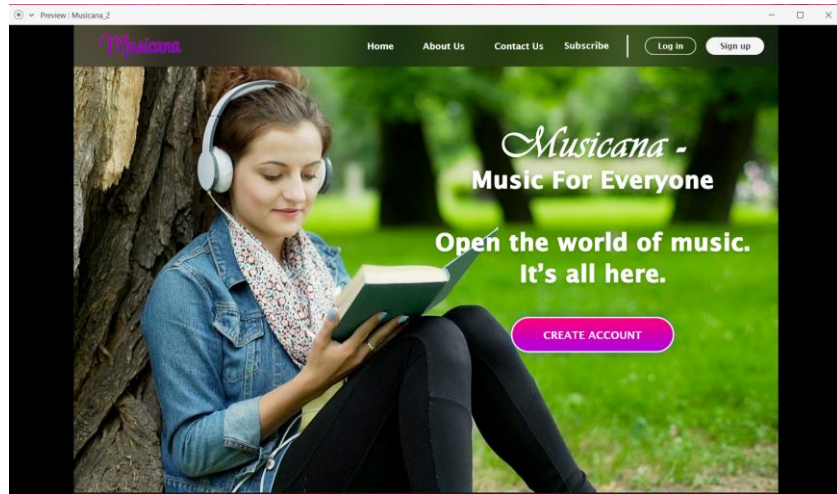

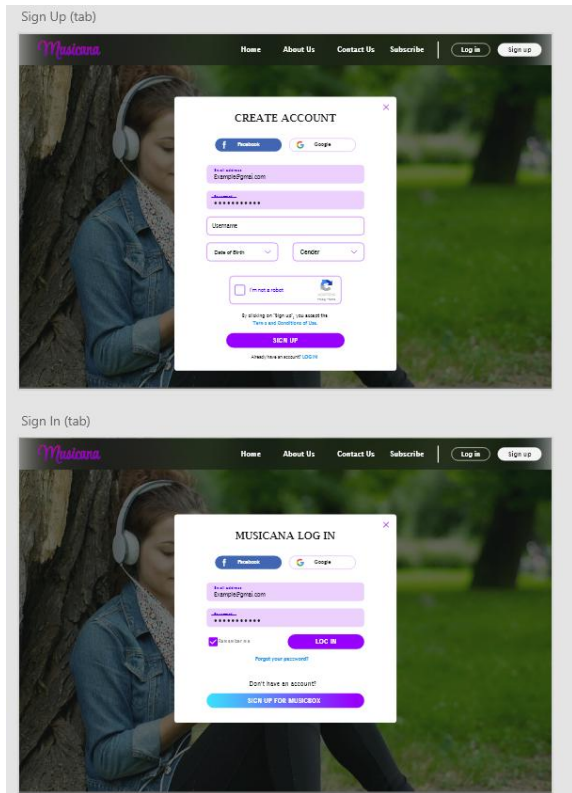

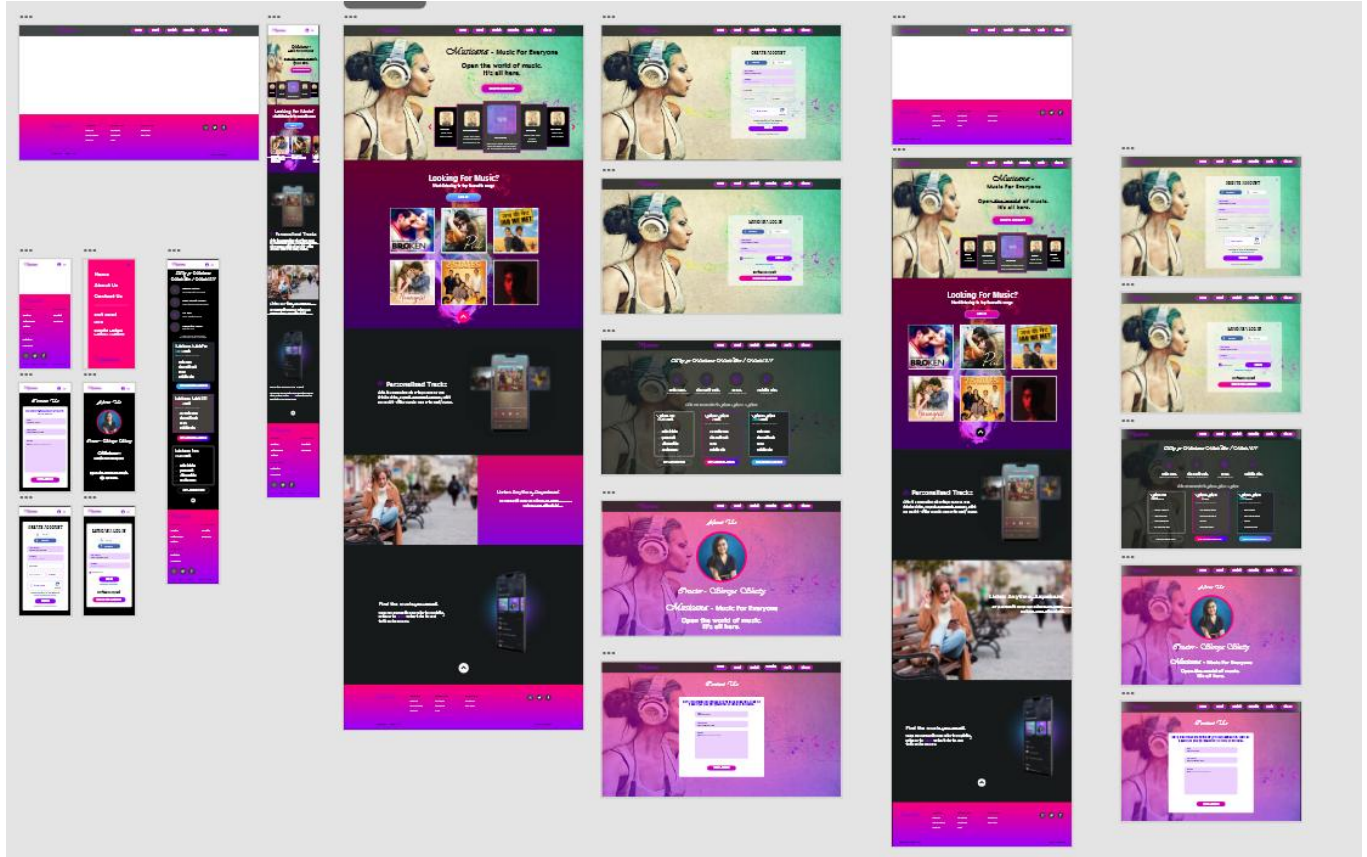

## Tab Size Canvas:

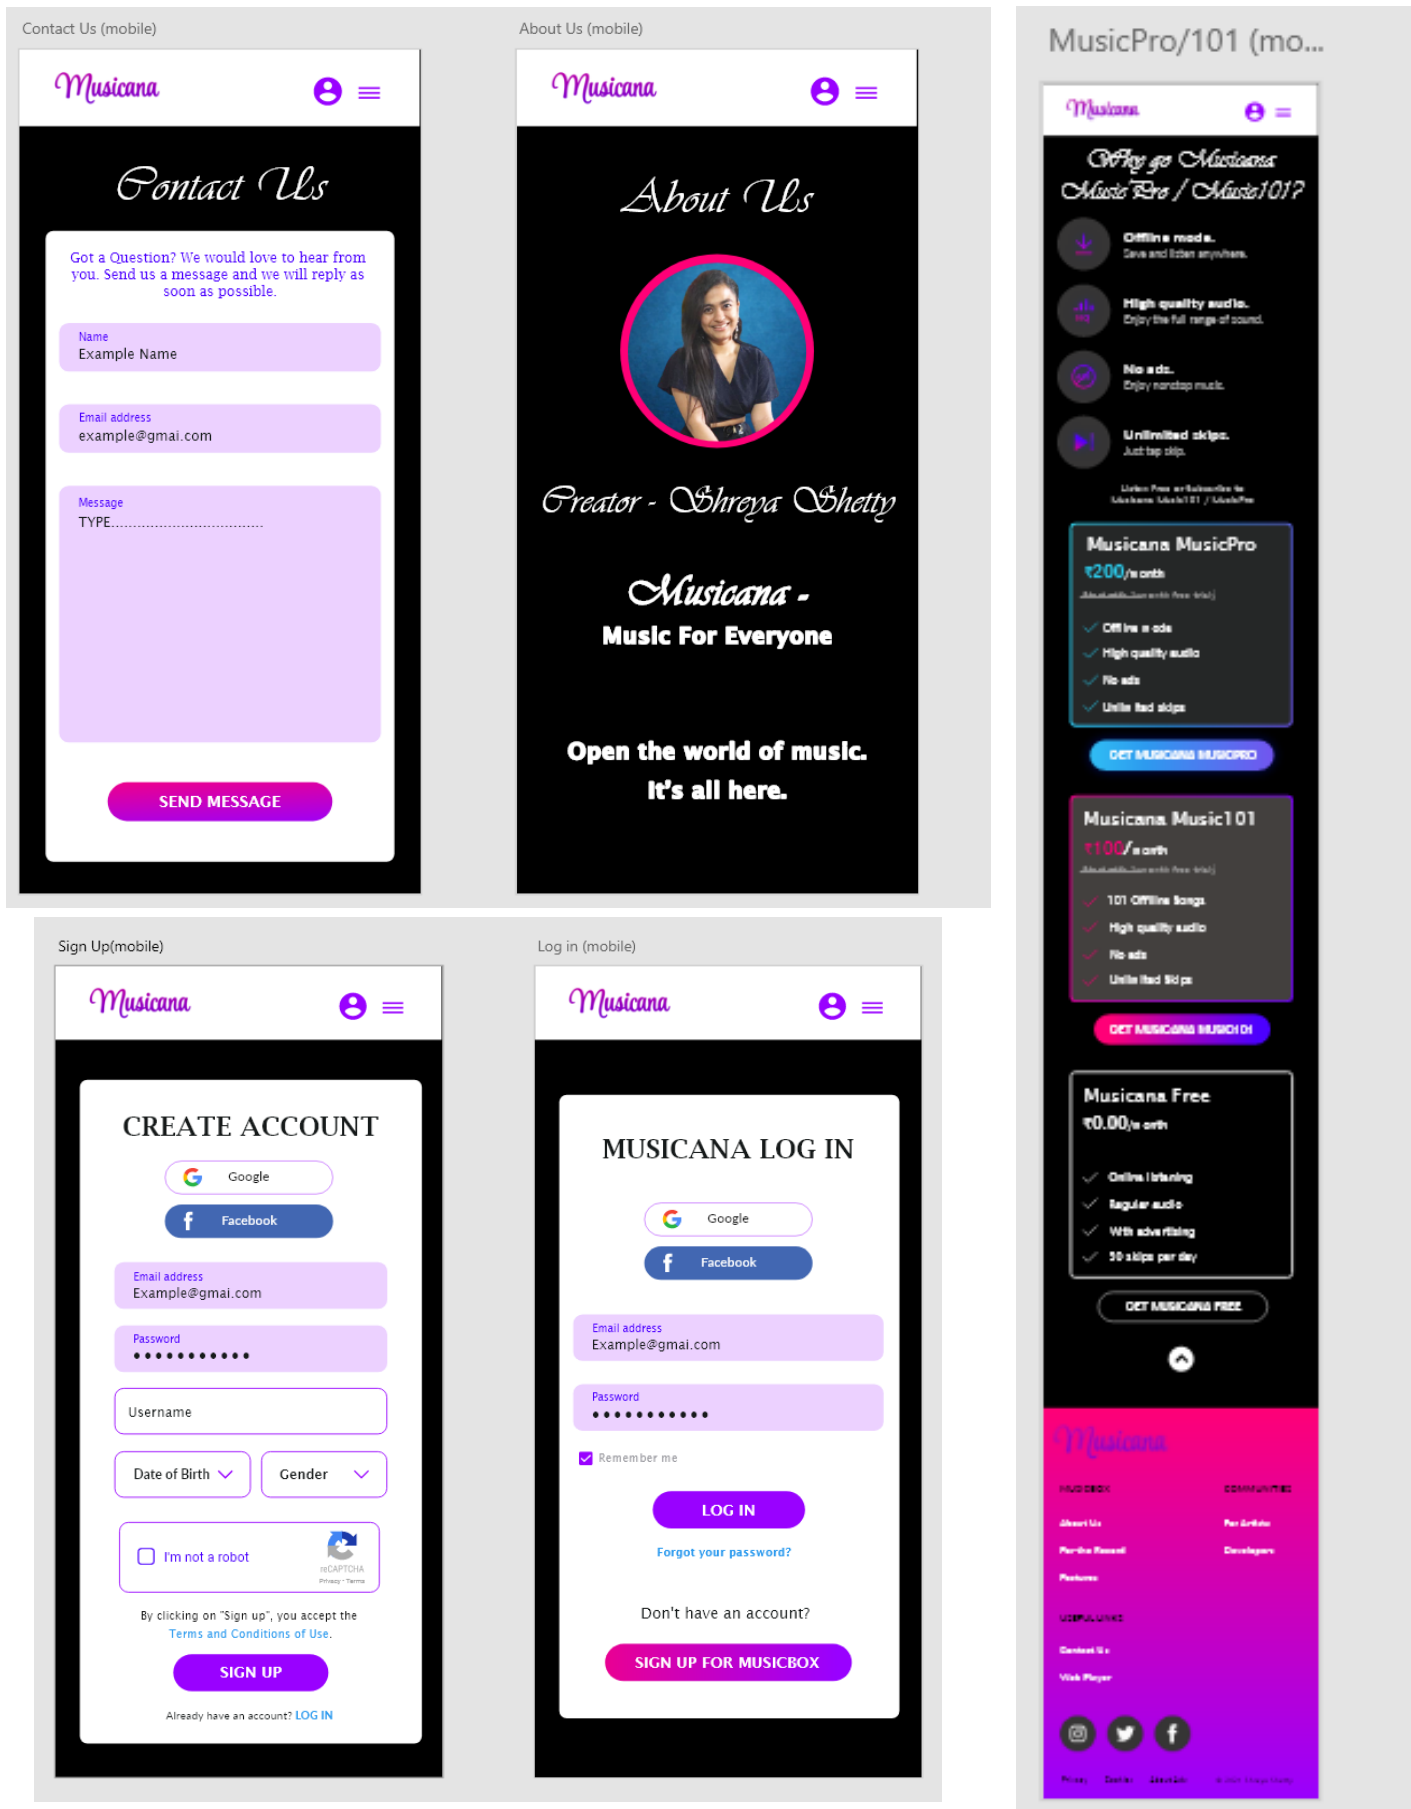

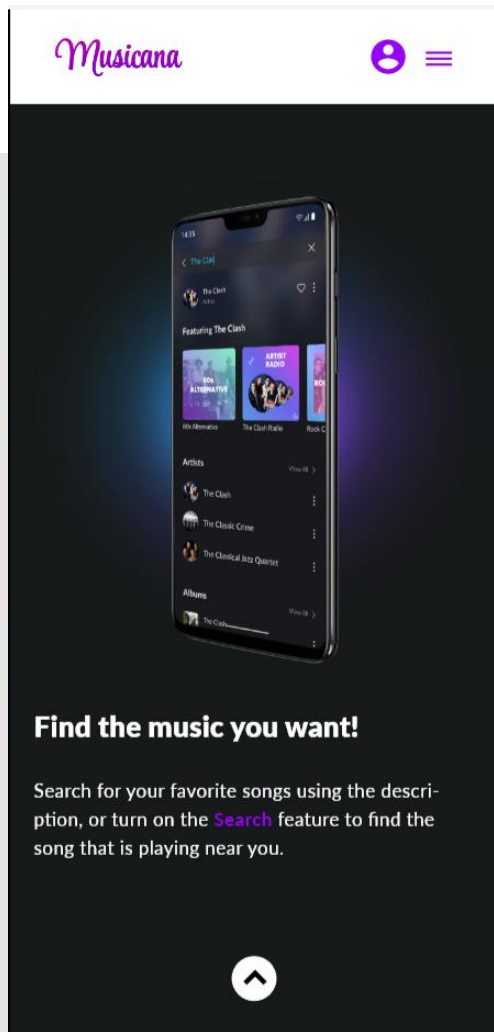

### Design 3 in 3 Device Sizes:

## Mobile Size Canvas :

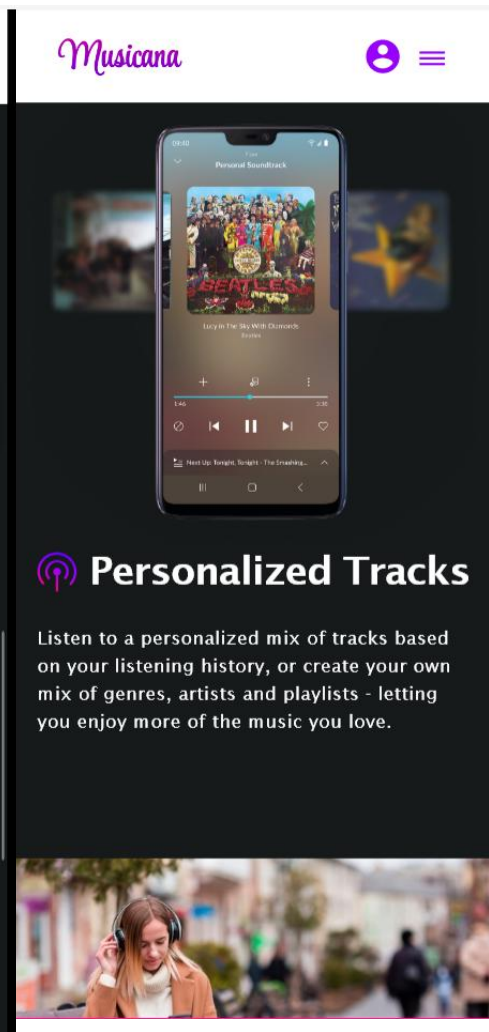

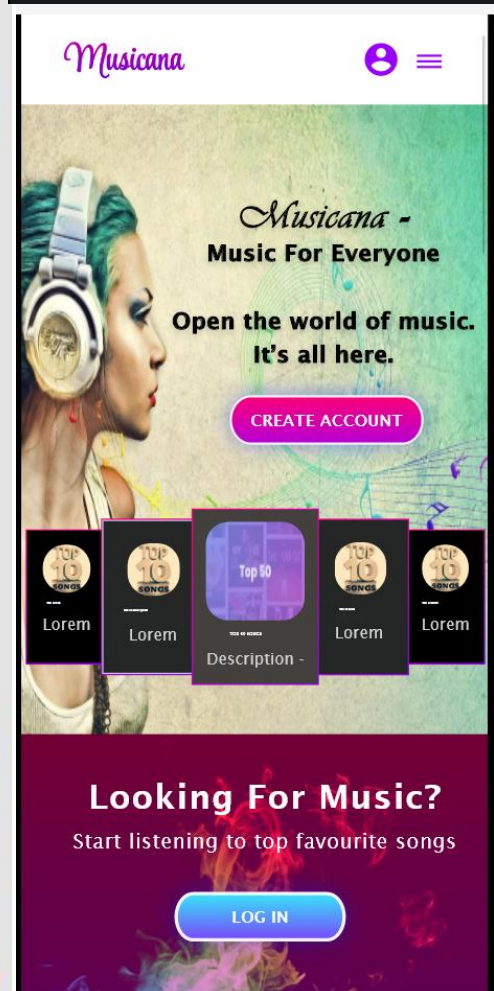

## Find the music you want!

Search for your favorite songs using the description, or turn on the **Search** feature to find the song that is playing near you.

## Personalized Tracks

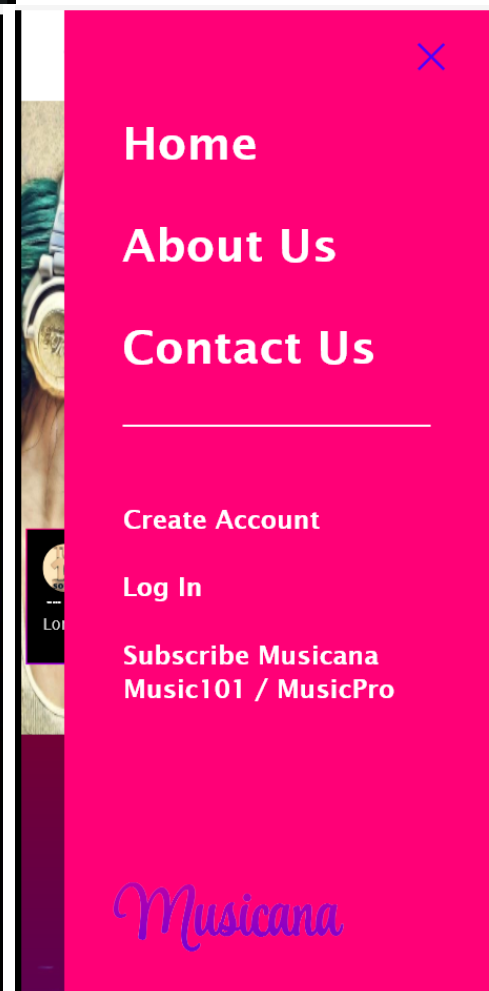

Listen to a personalized mix of tracks based on your listening history, or create your own mix of genres, artists and playlists - letting you enjoy more of the music you love.

## Looking For Music?

## Desktop Size Canvas :

## CONCLUSION:

Hence, in this experiment, I was able to make UX Design for Home Page of my problem statement 'Musicana - Music Website' using Adobe XD for all 3 device sizes (Web Desktop, Mobile and Tab).
